OBJECTIVE

Seeking a Software Developer role in a manufacturing or enterprise environment where I can leverage my expertise in ASP.NET, C#, and MySQL to build and maintain scalable internal systems. Committed to delivering high-quality software solutions that improve operational efficiency and support business goals.

EXPERIENCE

Software Developer — C#, VB.NET, PHP, JavaScript, MySQL, *January 2025 – Present*
GRUPPO EMS Inc., Cavite, Philippines

- Improved, maintained, and enhanced internal manufacturing, production, and web-based systems for daily operations across production, warehouse, and QA workflows.
- Developed internal systems for BOM management, production tracking, unit traceability, and inventory monitoring with role-based access control.
- Automated serial and lot label generation, reducing manual input errors.
- Investigated and resolved production issues, system bugs, and internal support tickets in collaboration with QA engineers for testing and validation before deployment.
- Created technical documentation and user manuals for developed systems.

IT Intern and Programmer, *March 2024 – June 2024*
Municipality of General Mariano Alvarez Cavite

- Created a custom QR code generator web app to streamline the generation of QR Code IDs using PHP and Javascript.
- Debugged existing systems and contributed to the development of municipality projects.
- Assisted staff in troubleshooting software and hardware issues during events and training sessions.

PROJECTS / RESEARCH COMPLETED

Research: Inventory and Sales Management System for Samson Pharmacy
A capstone project for Samson Pharmacy designed for efficient tracking of inventory levels, monitoring product status, processing transactions, and generating reports.
Tech Stack: HTML, CSS, JavaScript/jQuery, Bootstrap, PHP, MySQL

Project: Custom QR Code Generator Web App for ISFs
A web application developed during my internship at Municipality of GMA Cavite for the generation of QR Code IDs for ISF individuals. Versatile and flexible for various identification needs.
Tech Stack: React JS, Tailwind CSS

Project: Furniture Ordering System for Postrado
A freelance web-app project allowing customers to browse and order furniture online and submit requests for custom-made furniture. Includes an admin panel for managing orders, customer records, and sales/inventory reports.
Tech Stack: HTML, CSS, JavaScript/jQuery, Bootstrap, PHP, MySQL

SKILLS

Technical Skills

- Programming Languages: C#, VB.NET, PHP, JavaScript, Java
- Frameworks & Web Technologies: ASP.NET, React JS, HTML, CSS, jQuery, Bootstrap, Tailwind CSS
- Database: MySQL
- Tools: Git, GitHub

Other Skills

- Experience with collaborative development workflows and cross-team coordination
- Technical documentation and user manual writing
- Strong analytical and problem-solving skills
- Effective troubleshooting and debugging across web and desktop applications
- High attention to detail in code quality and system validation
