EDUCATION

Cavite State University – Carmona Campus - Aug 2019 to Sep 2024
Bachelor of Science in Information Technology

Angelo Levardo Loyola Senior High School - Aug 2017 to Mar 2019
Information and Communications Technology

EXPERIENCE

Municipality of General Mariano Alvarez Cavite
IT Intern, March 2024 to June 2024

- Developed a custom QR code generator web app to streamline the generation of QR Code IDs.
- Debugged existing systems and contributed to the development of municipality projects.
- Assisted staff in troubleshooting software and hardware issues during events and training sessions.
- Scanned, organized, and encoded municipal documents to improve data management.
- Performed regular maintenance on laptops and software to ensure smooth operations.

PROJECTS/RESEARCH COMPLETED

Research: Inventory and Sales Management System for Samson Pharmacy

Developed as my capstone project for Samson Pharmacy, the Inventory and Sales Management System is a comprehensive solution designed for efficient tracking of inventory levels, monitoring product status, processing transactions, and generating reports.

Project: Custom QR Code Generator Web App for ISFs

A web application developed during my internship at Municipality of GMA Cavite for the generation of QR Code IDs for ISF individuals. The application is versatile and can also be used to create QR Code IDs for other purposes, making it a flexible tool for various identification needs.

Project: Furniture Ordering System for Postrado

A freelance project I developed that allows customers to browse and order furniture online, as well as submit requests for custom-made furniture. The system includes an admin panel where the shop owner can manage orders, customer records, and generate detailed sales and inventory reports for efficient business management.

SKILLS

- HTML, CSS, Javascript, and PHP proficiency.
- Intermediate knowledge on Java programming and OOP concepts.
- Proficient with MySQL database.
- Basic knowledge of Laravel framework.
- Adaptable and eager to learn.
- Strong analytical and problem-solving skills.
